Use the **BEST** connection possible for High Definition (HD) TV

- Remember, your TV picture quality for HD viewing is based on the connected signal source.
- Contact your local Cable / Satellite provider for High Definition Signal availability in your area.

HD Cable / Satellite / DVD / Game Console

BEST

Connection for digital High Definition Video & Audio.

- HDMI is your best digital HD connection.
- Use HDMI input connection for your HD Cable box, HD Satellite signal or Blu-Ray DVD input.

HD Cable / Satellite / DVD / Game Console

Better

Connections for products that do not have HDMI outputs.

- Component Video inputs are excellent digital connections.
- Use the Y/Pb/Pr Component Video Inputs (YPbPr) and Audio Input (L/R) for your HD Cable box, HD Satellite signal or Blu-Ray DVD input.

VCR, Digital Camera / Converter

Good

Connections for accessory peripherals.

- Use the Composite Yellow Video Input & Audio L/R inputs.
- Y/Pb and Side AV are available as composite input by using Yellow Video 19 Jack.

TV

For TV signal, please use a TV-Only Cable or Antenna. We are not able to use TV-Only Cable / Antenna connection.

- Refer to the beginning pages of your User Manual for additional connection options.
- Need a cable? Philips has them at: www.shopping.philips.com/cables
